# WHY YOU SHOULD ATTEND ICCM24

Embark on a transformative journey at the 24th International Conference on Composite Materials (ICCM24), the pinnacle of global gatherings for composite materials science and technology. As a participant, you'll immerse yourself in a dynamic environment where cutting-edge insights and unparalleled networking opportunities converge. The conference serves as a nexus for the world's foremost experts, researchers, students, and industry professionals, ensuring you stay ahead of the curve with the latest innovations and trends. Beyond the professional enrichment, ICCM24 offers a platform for international collaboration, providing a unique opportunity to showcase your research to a diverse, global audience. Join us to unlock new horizons, foster cross-cultural understanding, and propel your career or company to unprecedented heights. ICCM24 isn't just a conference; it's a global expedition into the future of composite materials offering a myriad of compelling reasons, especially for those traveling internationally:

1. Cutting-Edge Insights: ICCM24 gathers the foremost minds in composite materials science and technology. By attending, you gain access to the latest research, innovations, and trends, ensuring you stay at the forefront of your field.

2. International Collaboration Opportunities: ICCM24 attracts an international audience, providing a unique opportunity to initiate and strengthen international collaborations with researchers and professionals from around the world. Collaborative projects can lead to shared resources, knowledge transfer, and mutually beneficial research initiatives.

3. Professional Development: ICCM24 offers a robust program of presentations by leading experts. This environment fosters continuous learning, skill development, and career advancement.

4. Learn from Industry Researchers: ICCM24 features a dedicated track by industry researchers on tech transfer, challenges, and outlook. Learn from leaders who are at the forefront of

composite materials in various sectors. Discover the latest innovations, best practices, and emerging trends in the composites industry.

5. Exposure to Innovative Practices: International participation exposes attendees to a wide range of methodologies, practices, and applications within the composite materials field. This exposure is invaluable for broadening one's knowledge base and adapting to diverse industry needs.

6. Showcasing Innovations: Whether you are a researcher or industry representative, presenting your work at an international conference amplifies exposure. It's a chance to showcase your innovations to a global audience.

7. Conference Legacy: ICCM's longstanding history and reputation ensure a high-quality event. Being part of this conference connects you to a network that will continue beyond the event itself.

ADVANCING GLOBAL INNOVATION IN COMPOSITE MATERIALS

## PAST STATISTICS

▶ **ICCM23**  
BELFAST, IRELAND  
July 30 - August 4, 2023

 **DELEGATES**  
1,117 FROM 57 COUNTRIES

**TOTAL PRESENTATIONS**  
805

# WHY YOU SHOULD EXHIBIT AT ICCM24

Exhibiting at the 24th International Conference on Composite Materials (ICCM24) in Baltimore, MD, August 4-8, 2025, provides a unique opportunity for companies to engage with the global scientific and engineering community focused on composite materials. With a rich history dating back to 1975 and the last U.S. hosted ICCM conference held in San Diego in 2003; ICCM serves as a premier forum for the exchange of information, fostering international collaboration, and promoting the understanding and utilization of composite materials science and technology. By participating, companies can stay at the forefront of advancements, contribute to timely research and development, and benefit from a diverse and inclusive environment that encourages innovation and growth. ICCM's commitment to recognizing outstanding achievements and promoting education aligns with companies' goals in advancing composite technology.

Exhibiting at ICCM24 is a strategic investment for industry players looking to position themselves at the forefront of composite materials advancements, build meaningful connections, and contribute to the growth and development of the industry. Exhibiting offers several key benefits to industry participants:

1. **Networking Opportunities:** ICCM24 provides a global platform for industry professionals to connect with scientists, engineers, and experts in composite materials. Exhibitors can establish valuable contacts, fostering potential collaborations and partnerships.
2. **International Recognition:** ICCM24 provides a platform to showcase industry achievements, with opportunities for recognition. Being associated with a conference of this caliber can enhance a company's reputation and demonstrate its commitment to excellence in composite materials.
3. **Recruitment Opportunities:** The conference attracts professionals, researchers, and students interested in composite materials science and technology. Exhibiting companies can use this opportunity to identify and recruit talented individuals to strengthen their workforce. An online portal will be made available to all exhibitors where participants can share their resumes with you.
4. **Learn from Industry Researchers:** ICCM24 features a dedicated track of industry researchers on tech transfer, challenges, and outlook. Learn from leaders who are at the forefront of composite materials in various sectors. Discover the latest innovations, best practices, and emerging trends in the composites industry.
5. **Stay Informed on Advancements:** Being part of ICCM24 allows industry exhibitors to stay up to date on the latest research, developments, and trends in composite materials. This knowledge is crucial for staying competitive and innovative within the industry.
6. **Showcase Products and Services:** Exhibiting provides a dedicated space for companies to showcase their latest products, services, and innovations to a targeted audience. It's an opportunity to demonstrate capabilities and highlight your company's uniqueness.
7. **Market Research:** Exhibitors can gather insights into market trends and customer needs by engaging with conference attendees. This information is valuable for refining business strategies and product development.
8. **Engage the Composites Community:** By participating in ICCM24, companies actively contribute to the mission of fostering the understanding and utilization of composite materials. This involvement can enhance industry leadership in the field of composites.

## EXHIBIT BOOTH

Exhibit Booth Fees are  
\$3,800 per 10'x10'

- Submit your application online
- Three (3) Exhibit Hall Staff Badges will be included with each 10'x10'
- Includes all Food Functions within the Exhibit Hall
- Exhibit Hall Security
- Standard 8-foot back drape and 3-foot side drape
