

Professor Daniel Melo

Professor of Materials Engineering at the
Federal University of Rio Grande do Norte
– UFRN in BRAZIL

Daniel Melo has been working in the field of Composite Materials for over 30 years. His main research interests and contributions are in design and mechanical characterization of polymer composites. In this area, he advised many graduate students, published three books and numerous papers in peer-reviewed journals and international conference proceedings. He is Associate Editor of the Journal of Reinforced Plastics and Composites. Daniel Melo has been Rector of UFRN - BRAZIL since 2019.
